

IS THE END OF WINDOWS MOBILE OS LEAVING YOU VULNERABLE?

Instantly Transition Your SAP Workflows to Android with the SAP GUI® from Synactive Liquid UI

We are sure that by now you have heard that the end of support for the existing Windows mobile OS—relied upon for about \$5 billion of enterprise application investments worldwide—is quickly approaching in 2020.

SAP GUI® From Synactive Liquid UI + Zebra Technologies = Plug-And-Play Android Transition

SAP GUI® from Synactive Liquid UI is your solution to seamlessly transition from Windows to Android without programming or middleware.

Synactive and Zebra Technologies can help you seamlessly and effortlessly transition your SAP-based workflows to Android without ripping-and-replacing your already established and functional system.

What is SAP GUI® from Synactive Liquid UI ?

SAP GUI® from Synactive Liquid UI is an SAP-focused technology powered by robotic process automation that keeps your business moving. With SAP GUI from Synactive Liquid UI, you don't need additional IT infrastructure or programming to mobilize your existing SAP transactions.

With Zebra, SAP GUI® from Synactive Liquid UI Helps Power Your Business

SAP GUI® from Synactive Liquid UI has been re-envisioned specifically for Zebra devices, delivering a streamlined, automated, and enhanced SAP GUI® to Zebra devices, natively. As the pioneer at the edge of the enterprise, Zebra develops products, software, analytics, and solutions used to intelligently connect your people, assets, and data.

Why SAP GUI® from Synactive Liquid UI?

Instant SAP Mobility

Mobilize any SAP GUI transaction on R/3, ECC, or S/4 without any programming.

Low IT Involvement

Your teams can be more agile because of the low IT involvement with mobility solutions.

Highly Customizable

Development tools and JavaScript engine allow for rapid customization, so you can adapt to your customers' needs.

Low-Risk of Operational Disruption

Users who are accustomed to SAP will not need to learn a completely new system with new workflows to do their job.

Low Cost

It simply extends the SAP GUI to Zebra devices and requires no additional resources to maintain or develop.

Solutions for Every Environment

Uniquely developed, honed, toughened, and tested to perform in even the harshest, most demanding environments, Zebra Enterprise Android is the definitive suite of products and tools for the enterprise looking to mobilize its workforce, its processes, its productivity, and its profitability.

Warehousing

Get total visibility of what it is, where it is, and how to find it—from dock, to stock, to pick, to pack, to ship—instantaneously.
