

# PRINT DNA

## THE GENETIC CODE THAT TRANSFORMS PRINTERS With Business-Catalytic Capabilities

### DEVELOPMENT TOOLS

Integrate with what's now and what's next in technology with the greatest of ease.

- ✓ Connect directly and securely to the cloud
- ✓ Quickly install new printers into complex network and ERP environments
- ✓ Create native apps across multiple platforms

Multiplatform SDK

Browser Print

PrintConnect

Cloud Connect

Network Connect

### VISIBILITY TOOLS

Sense and analyze the status and health of Link-OS printers in real time to take decisive actions.

- ✓ Preempt problems by seeing which printers are in a warning or critical state
- ✓ Replace manual asset tracking spreadsheets
- ✓ Integrate with popular enterprise mobility management tools

MDM/EMM Connectors

Visibility Services

Powered By

### MANAGEMENT TOOLS

Effortlessly add and control large volumes of Link-OS printers from anywhere.

- ✓ Implement large-scale deployments
- ✓ Identify Link-OS printers on networks
- ✓ Push out new configurations and security protocols
- ✓ Quickly troubleshoot remotely

Printer Profile Manager Enterprise

Bluetooth® Printer Management

Printer Setup Utility

The most intelligent printer operating system in existence

### PRODUCTIVITY TOOLS

Elevate printer performance so man and machine can work at their peak.

- ✓ Slash training time and workloads with a common, customizable user experience
- ✓ Instantly launch an app or web page
- ✓ Increase accuracy and speed of output
- ✓ Print more languages than ordinary printers
