

# OPEN THE POSSIBILITIES WITH MODERNIZED DIGITIZATION

There are over 2 million applications available for Android, and CMAC makes sure you can make the most of them all with seamless modernized digitization, built with Zebra Technologies and Synactive.

## It starts with rugged hardware

Smart PRZM omnidirectional scanning

Streamlined mobile computing and data capture

Pre-installed Android for Enterprise

Access to Zebra's Mobility DNA for expanded capabilities

## Paired with intelligent software

### Instant SAP Mobility

No middleware required

Customizable screens that require little IT involvement

Low cost and adaptable

## Delivered with dependable CMAC expertise

Assisted software implementation

Device procurement 24/7 tech support

Remote maintenance and on-site training

## MOBILIZE SAP ON AN ANDROID PLATFORM FOR IMMEDIATE RESULTS SUCH AS:

**40% increase** in productivity

Dependable device security

Up to \$100 saved per inaccurate entry

**75% reduction** in data entry errors

Faster employee onboarding

Combine the power of Zebra's dependable enterprise hardware with Synactive's error-free productivity and eliminate guesswork from your operations. Contact CMAC to learn more.
